

Looking for a doctor in Dhaka?

Visit the Travellers Clinic @ ICDDR,B

The Travellers' Clinic @ ICDDR,B—providing medical services to the expatriate community for over 20 years, including many embassies—is renovating and expanding to provide an even better service to you and your family.

What's new?

Refurbished premises and a new team of internationally trained doctors, including:

- expat doctors
- male & female doctors

Services

A clinic offering **general practice/family medicine, travel medicine**, and adult & paediatric services by arrangement, including:

- routine diagnostic examinations
- women's health (including cervical smears)
- routine/full range of immunizations
- travel vaccinations
- child health & routine child checkups
- assessment for referrals
- access to investigative facilities onsite:
 - laboratory
 - endoscopy
 - xray
 - arsenic/water checks

We provide a range of diagnostic services, including:

- dengue & malaria
- blood, urine, cerebral spine fluid testing
- stool microbiology
- liver & kidney function tests; hepatitis
- reproductive & thyroid hormone testing
- diabetes
- antibiotic sensitivity testing

Consultations available in English, Bangla, and some other languages by arrangement.

For further information, see www.icddrb.org/activity/clinic or contact trav.clinic@icddrb.org.

Hours

Doctors available 9am-12pm from Sunday to Thursday. Appointments can be made between 9am and 5pm by telephone:

02 9899 620

02 8860 523 (ext 2311)

0173 001 9695

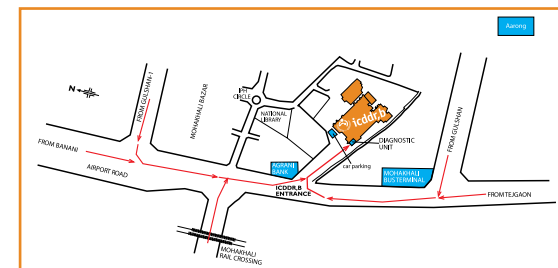

Patients with appointments will be given priority.

Costs

A two-tiered pricing structure applies for consultations (insured patients US\$50/others US\$15). ICDDR,B is a non-profit organization and all proceeds from the Travellers Clinic go towards the operation of the Dhaka Hospital.

Location

The clinic is located inside the Diagnostic Unit, and is wheelchair accessible. Limited car parking is available on site.
